

## Secure file transfer client software

- Quick to set up and configure
- Easy to manage and integrate
- Reliably runs behind the scenes without intervention
- Flexible to handle any data type or protocol
- Affordable and scalable connection options
- Trusted by 20,000 companies worldwide

## Ease of Use Built-in

LexiCom is quick to set up and configure. Most users are up and running in 30 minutes. These built-in features make it easy:

- **Pre-configured Hosts:** Reduce set up time with connections to popular trading networks (hubs) including Wal-Mart, Lowes, Target, FoodLion, Home Depot, Chrysler, Covisint, and hundreds more in the product and on the Cleo website.
- **EDI Translator Integrations:** Leverage your existing translator. Easily build integration files via user-specified actions and configurations.
- **Integrated Scheduler:** Set transmissions to occur automatically, at any time or interval.
- **Certificate Manager:** Perform all certificate-related tasks such as generating self-signed certificates and certificate signing requests (CSRs), exporting PKCS12 certificates, etc.
- **TCP/IP Port Usage Report:** Eases implementation when a firewall is in place.
- **AS2 Wizard:** Follow a series of on-screen steps to quickly configure AS2 trading partners.
- **Program Help, Online FAQs and Web Videos:** Instantly get access to information and tips.

## More Protocols, More Connections

- **Support for more protocols** than other products on the market.
- **Drummond Certified AS2, AS3, and ebXML Messaging Service (ebMS).**
- **Also supports** FTP, FTP/S, FTP/PGP, OFTP, SSH FTP, IBM® WebSphere® MQ, SMTP, HTTP, and HTTP/S connections.

## Affordable & Scalable

- **Affordable base packages** allow users to start with one or a few connections and economically add connections at any time.
- **Multi-connection packs** offer the best value for those companies facing additional upcoming mandates or planning for future growth.
- **Quick ROI:** Cost savings over traditional data transfer methods provide a quick and powerful ROI.

## COMMUNICATION PROTOCOLS

- FTP and FTP/S, FTP/PGP, OFTP, SSH FTP

- "100% Java"

Full requirements at :  
[www.cleo.com/support/byproduct/LexiCom/sysreqs.php](http://www.cleo.com/support/byproduct/LexiCom/sysreqs.php)

LexiCom users can reduce set up time with preconfigured “host” connections to hundreds of popular trading partners. The majority of configuration is complete; simply activate the host and fill in supplier specific information such as user name and password.

## Available Options

- **VLProxy:** Ensures tight security when a DMZ is in place. VLProxy eliminates unencrypted messages in the DMZ and eliminates configuration files being written to folder or directory locations in the DMZ.
- **Web-based Operation:** Configure and manage secure communications remotely from anywhere in the world.

## Ensure Success

Obtaining the right software is only the beginning of a complete solution. When required, assistance from Cleo's expert support team is readily available. Cleo's support team is known within the industry for providing top notch service with a quick turn around time.

- **Support bundle:** a built-in tool that outputs your configuration details to our staff with the touch of a button, to expedite problem resolution.
- **Updates and new releases** are available easily via email notification to all users with a current support subscription. This includes new features, protocols and interoperability certifications.

Cleo is your best partner for integrated, reliable, secure communications. For over 20 years, Cleo has been helping thousands of companies with their data communication needs. Over 100,000 installations in manufacturing, retail, healthcare, financial, automotive, and other markets rely on Cleo products. Any trading partner, any network, any protocol, Cleo has your connection.
